of New Danger

Warning of the new flood crashed like a body punch into tired residents of Oregon, Washington, Idaho, Montana and British Columbia who have been battling two weeks against the river's worst rampage.

The original crest was causing the most trouble in the heavily barricaded area around Clatskanie on the Oregon shore and Skamo-kawa across the river in Washing-ton. It was here—on the last 40 miles of its run into the Pacific that the wind-lashed waters rolled over the dikes when the incoming tide was highest.

The run-over was only one inch

The run-over was only one inch deep at the worst spot — on the Oregon side — and it lapped over only when the winds carne. Army engineers said the water was running three-tenths of a foot higher than yesterday when the critical stage arrived in this area.

The dikes still held. Thousands of regular army troops, national guardsmen and civilian volunteers worked steadily to keep building up the earthworks, stop the leakage

It was touch and go. Workers strained to build up the earthworks protecting the fertile low-lands. Their fight was against property damage only. The property damage only. The property damage only. property damage only. The people were evacuated days ago.

Upriver, too, the struggle against off dikes went on around Portland

aircraft procurement.

Both the army and the navy bills were parsed in the form recommended by the Appropriations Committee, which had cut budget estimates for the armed services by approximately \$890,000,000.

The navy bill carries funds to start work on a 65,000-ton super aircraft carrie, to be the largest of the states of the people in 18 even as the gears of rehabilitation finally meshed after the Memorial day disaster of Vanport.

To the latest suggestion that he withdraw from the race, Mr. Truman replied with a sharp declaration he was "not brought up to run from a fight."

# Senate Starts Action on Peacetime Draft

By EDWIN B. HAAKINSON
Washington, June 3 — (P)—A fiveear peacetime draft to meet the manpower needs of both the regu-lar armed services and the reserves was laid before the Senate

today as "the premium on our peace insurance policy."

This description came from Chairman Gurney (R-SD) of the Senate Armed Services Committee in a speech prepared for the open-ing of debate on the controver-sial measure (9 a. m. CST). Gurney and other GOP leaders lope to win Senate passage of the

draft revival bill by early next week — possibly through extra hour sessions. But there is stormy debate and possible trouble ahead. Senator Russell (D-Ga) — with advance pledges of widespread Southern support — has promised to fight for an amendment that would require the services to set up segregated white and Negro units for all men who asked to serve only with those of their own race. On top of this, Senator Langer

(R-ND), an avowed foe of the draft, said he will offer seven amendments to cover President Truman's civil rights program. Across the capitol, the House Rules Committee scheduled an-

al wrote Gurney that the pending bill is an "excellent" one.

The Senate measure would re-

Other voluntary enlistments also would be continued but Gurney insisted these will not guarantee the 1,795,000 regulars and 1,520,000 reserves required during the year that begins July 1.

# A FRANK STATEMENT

Because this is a special election there is little time for campaigning. Consequently I would like to reach many of you by newspaper. I am frank to admit that I do not know all the answers to the many problems. But here are my views on the questions which seem to be foremost in the minds of a majority of the people with whom I have talked.

1. THE POLICE DEPARTMENT - | believe this depart ment should be reorganized on a more efficient and economical basis. A new Chief of Police should be appointed who will honestly and fearlessly enforce our laws in a courteous but efficient manner.

2. ENFORCEMENT OF LIQUOR LAWS-Our City and County have voted dry. The majority has spoken and we are all bound by the will of the majority. There can and will be stricter enforcement of this law when I take office.

3. POLITICAL ALLIANCES—1 am not, nor have I been, identified with any group seeking special gains at the expense of the people. I have no obligations to pay to any previous administration, It has been said that I was attorney for Mr. Fink when charges were filed against him. Whether I was, or was not, should have nothing to do with this race, but the truth is that he was represented by Mr. Bert Larey, Attorney of Texarkana. This is a matter of record.

4. STREETS AND RAILROAD CROSSINGS-Both ore in a deplarable condition and a permanent plan of improvement should command first attention. The condition of Third Street has given us bad publicity all over the country. Hope has grown tremendously and many gravel streets are now busy thoroughfares. Until such time as they can be paved the city should bear its fair share of the cost of oiling.

5. CITY PARKS—We have a wonderful opportunity to develop recreational programs that will benefit the entire community. The Mayor and Council should lend full effort, including financial, to this program. The roads within Fair Park should be immediately improved to keep down the clouds of dust this summer.

6. CO-OPERATION WITH THE COUNCIL I am confident that most of our present trouble can be traced to lack of co-operation. I know that I can and will co-operate to the fullest extent and I have confidence that the Council will do the same.

7. CITY FINANCES I firmly believe the ordinary affairs of our city government can be conducted with greater effeciency and on less money. The days of "loose money" are about over and we must face this fact.

YOURS FOR A CLEANER, MORE EFFICIENT AND FAST GROWING CITY GOVERNMENT AND COMMUNITY.

The reason for al this detail is that it shows the existence in the government' in the very White House and in the national head-quarters of the ruling party of a dark, mysterious influence exerted by an adeventurer from Russia whose fanatical followers called him Cod and at the first control of the con whose fanatical followers called him God and who loftly accepted this status. The similarity of this atmosphere to that which pervaded the Russian court in St. Petersburg up to the fall of the dynasty in 1917 is helghtened by the fact that Roerich and Rasputin, the mad monk, both were Russians. They had spiritual qualities in common, too. Both were deliberately and elaborately mysterious.
